Dynamic
Touch-Screen Technology
Is your message felt?

- **Next wave of digital marketing**
- **Information at the touch of a button**
- **Maintain your marketing edge**

Capta-Vision touch-screen DDS networks are designed to engage your audience with the power of touch. We deploy these systems to be used as interactive kiosks, digital directories, hotel concierges, and information booths. Audiences access the information they need at the touch of a button; whether it's a particular store location in a busy retail area or the purchase of movie tickets for an upcoming show,

Unlock the power of your touch...
