

Dynamic Digital Way-finding Technology Leading the way.

- Instantly update or modify your signage displays
- Guide your audience thru busy environments
- Customize for any demographic

Capta-Vision uses the power of video and the element of touch to guide your audience through busy environments. In creating our dynamic digital way-finding kiosks, our goal is to provide a green, effective, easy-to-use mapping and scheduling tool for building directories, retail spaces, tradeshow and convention events.

Mission accomplished!
